## CUSTOM CARPET KIT INFO & INSTRUCTIONS

Once old carpet is removed, place carpet on plastic and trace. Then, when tracing is completed, cut out and place plastic inside of desired position inside the boat to ensure proper fitting. Also please place name and order # on each piece of plastic with arrows pointing to bow of boat so that the grain of each piece can be matched up for the most elegant and professional look possible. Please state and write only on the topside of plastic (the carpet material face up) and not on the bottom (the backing side down).
